I disagree with the classification of my claims by Weil. The Weil attorney initially told me they believed my claims were RSU related and would be treated as equity. I explained to the Weil attorney that my claim was not RSU related, but commissions / sales credits that were scheduled to be paid out over a 5-6 year period in an installment method. At that point, the attorney stated that they then planned to challenge my employment status. I worked for Lehman Brothers since 1986 without interruption. I dispute Weil's interpretation and treatment of my valid claim. I respectfully request that my claims be properly considered.
